BEACH TRIVIA ANSWER KEY

Revere Beach - State of Massachusetts, established in 1896

Revere Beach faces Massachusetts Bay, approximately five miles north of Boston. Its hard sand shore forms a great crescent along the New England coastline with wide expanses of sand stretching for more than three miles and sloping gradually down to the water,, which makes it the perfect bathing beach for families. It is also known for its great scenic views of little Nahant island across the bay, with lighthouses and the Winthrop and Logan Airport peninsulas to the south.

Revere Beach was designated as a National Historic Landmark in 2003.
